Professional summary

Music producer and recording engineer with label experience at Ambitiouz Entertainment (2017–2022). Produced commercially released music and worked across vocal recording, editing, mixing and stem delivery for mastering. Supported artist development and contributed to A&R-style song evaluation and label discussions. Completed Music Business and Entertainment Management at Soul Candi Institute of Music with Distinction.

Professional experience

Ambitiouz Entertainment | 2017–2022

In-House Producer • Recording Engineer • Composer • Artist Development

- Produced and composed commercially released music while working directly with label artists.
- Recorded artists and engineered vocal sessions, including setup, tracking, editing and delivery of organised sessions.
- Mixed records and prepared stems for final mastering.
- Supported song and vocal development through arrangements, performance guidance and creative direction.
- Contributed to A&R-style song evaluation and discussions about release or commercial potential.
- Participated in label, artist, release and music-business discussions with artists and creative teams.

Kreazoe International / Independent creative work

Music Producer • Composer • Creative / Graphic Designer

Independent work before and after Ambitiouz Entertainment.

- Produced independent records and supported artists with music creation and creative development.
- Created artist graphics and album artwork, including design work for Harrison Crump's Legendary project.
- Continued independent production after Ambitiouz Entertainment, including Inkabi Zezwe's Iskhwele (first-hand studio history).
